The Czech Geographical Bibliography Online

GEOBIBLINE www.geobibline.cz

UNIVERZITA J.E.PURKYNĚ V ÚSTÍ NAD LABEM

- The aim of the Geobibline project is to provide an online access to Czech geographical bibliography of the 20th and 21st CE and furthermore to create a virtual research environment based on cooperation of the Czech geographic libraries. The databases includes various geographical documents not only from Czech authors but also from foreign ones dealing with geographical issues of the Czech region. Professional geographical resources are now easily available for university researchers as well as for the general public through one interface.
- Producent: Geographical Library Faculty of Science of the Charles University in Prague, Masaryk University in Brno, J. E. Purkyne University in Usti nad Labem and Computer Centre of the Charles University in Prague
- Retrospective: 1900 present
- Update: monthly
- **Type of resource:** bibliographic with abstracts
- Document types: books, cartographic documents, journals, journal and proceeding articles, electronic sources, university theses
- Content: theoretical, physical and social geography, cartography, demography
